UPDATING REQUIREMENTS FOR BUSINESS PLANS

Hazardous materials business plans must be updated periodically to insure that current information is available for emergency response and community right-to-know purposes. The three required updates of the business plan are as follows:

1. **Annual Inventory Updates** - The hazardous materials inventory portion of the business plan must be reviewed and updated annually. This may be accomplished by completing the business plan update form on the reverse side and returning it to this department. Please note that new inventory forms and/or site maps need only be submitted if you have made **changes** in inventory quantities, materials, or storage location since your last update.
2. **Triennial Review and Recertification** - The entire business plan, including emergency notifications, evacuation and employee training sections, must be reviewed and recertified every three years.
3. **Significant Change Updates** - The portion of the business plan affected by the change must be updated within 30 days of **any** of the following events:
 - a. A 100 percent or more increase in the quantity of a previously disclosed hazardous material.
 - b. Any handling of a previously undisclosed hazardous material subject to the inventory requirements.
 - c. Change of business address.
