## **Number of Confirmed COVID-19 Cases Impacted by CalREDIE Outage**

HANFORD, CA – The Kings County Department of Public Health (KCDPH) would like to report that due to a system outage of the California Reportable Disease Information Exchange (CalREDIE) system, today's actual number of new confirmed COVID-19 cases, may be higher than reported. CalREDIE is a secure system that the California Department of Public Health (CDPH) has implemented for electronic disease reporting and surveillance. KCDPH will continue to update the public as to the actual number of new confirmed cases as the information becomes available from the CalREDIE system.
